Guidelines for Judging Originality

See page 11 of your bylaws for full copy. A work is valued the most when it expresses your own ideas. Technique and skill are not always the primary ingredient in a juror's judgement of work that is acceptable for an exhibit.

Paintings from Photographs -- they should be your own original photos and not from postcards or magazines, etc. There is a difference between using reference and copying. Painting copies of other works of art should be considered a learning process and these copies should not be exhibited. You may be subject to legal action if you copy a known work of art and sign your name to it.
